

Morning Session

9 AM - 12 PM

## Mining for Information in WebJunction Idaho

### Purpose:

Explore the navigation tools to find content and continuing education opportunities. This is an interactive course where each participant will have hands on experience with the web-site.

### Learning Objectives:

By the end of the workshop participants will be able to

- Navigate the content and courses tabs of WebJunction Idaho
- Use MyWebJunction to track bookmarks, groups, and other social networking activities on WebJunction Idaho
- Reflect on the use of this knowledge in their personal and professional lives.

### Outcomes:

- A personal account with WebJunction Idaho with appropriate privacy settings which allow the user to connect and interact with other librarians.
- Navigation tools to discover content and courses on WebJunction Idaho.
- List of tips to maximize the benefits of self-directed learning.
