Essay:

In a world where life is focused on technology and careers, young people can get trapped in the idea that they need to grow up faster than they really should. I believe that books can provide a temporary escape from the hustle and bustle of everyday life. A place where beavers talk, dwarves exist and it is always winter; Narnia has been one of my favorite books for years, for the simple reason that it provides an escape from modern life.

This series provides a clean, enthralling story, and keeps the reader interested with its frequent twists and turns. It teaches valuable lessons that people deal with in the real world such as jealousy, curiosity, anger, submission, and having faith. Not only can the book temporarily take you to another place, but at the same time, it can help you deal with problems that you face today.
