Essay: My name is Alex Lemon and the book I choose was Classic American Cars by Quentin Willson because I like books on automobiles. This book gives back ground on 50s and 60s technology and how we have improved on the technology to make the car that we drive today better. This book also contains pictures cars such as Chevy, Ford, and Chrysler. It includes fact on how much we are saving in gas mileage now as to the cars of the 60s when we only got four miles to the gallon. I recommend this book to anyone that is interested in learning more about cars.
