Response Text		
1	Thank you so much for continuing to provide resources for working with teens. It is incredibly valuable of the work of public libraries.	Mar 22, 2011 2:23 PM
2	I have found WebJunction to be incredibly useful as I'm looking for tips and tricks on how to accomplish a new task in our library. In addition, ProQuest Central is an invaluable resource, and I am grateful every day that ICfL provides us with access. Finally, I greatly appreciate the workshops put on by the librarians from the Commission, as it gives me a chance to interact and network with other library staff and to expand my knowledge and share ideas. We are very lucky to have these opportunities. Thank you!	Mar 22, 2011 2:24 PM
3	The Teens & Technology class introduced me to Digital Book Trailers and how to go about creating trailers. I was then able to share what I learned with my staff and students. The knowledge gained has also provided me with the opportunity to teach the Digital Book Trailer procees as district class.	Mar 22, 2011 2:32 PM
4	Jan Wall is an e-rate expert extraordinaire! The schedules she prepared ahead of time were invaluable to completing the Form 471 quickly and accurately.	Mar 22, 2011 2:36 PM
5	The erate and Btop training have been wonderful. I am excited for the money that erate will save us. I never did it because I thought it was too difficult but due to the training provide and Jan Wall's help it was very easy! I am grateful that we will be better able to serve our patrons and expand programs because of the money saved.	Mar 22, 2011 2:46 PM
6	In the busy world of today it is nice to stop and meet with colleagues and be re-inspired! I also appreciate the ability to connect with many others and hear people from all over the continent, connecting and learning from the best via webinars.	Mar 22, 2011 2:47 PM
7	Without the continuing education opportunities offered by ICFL, I would find it difficult, if not impossible, to improve my skill level and learn new technology. Thank you for making these activities available to public library staff throughout Idaho.	Mar 22, 2011 2:52 PM
8	I was one of the mentors chosen by the Commission to assist in Teens and Technology this year. From my standpoint, I know I have increased my understanding of useful technology through the course. I also heard nothing but good things from participants about the workshops we were able to provide.	Mar 22, 2011 2:55 PM
9	My students are now making creative video book trailers thanks to the quality training I received at the Teens & Technology workshop.	Mar 22, 2011 2:59 PM
10	I use the ICFL website every week for information to help me do my job better. Without their expert help I would not be as effective with my patrons. thank you for all that you do.	Mar 22, 2011 3:21 PM
11	I have attended the Read to Me meetings several times, and come away with more information and renewed information every time.	Mar 22, 2011 3:39 PM

12	<p>Enjoy the ability to take the self directed courses on WebJunction.</p> <p>I also have the staff members at our library complete the ABLE and the SABLE courses.</p> <p>Thank you</p>	Mar 22, 2011 4:29 PM
13	<p>I am grateful for the webinars that are available at no cost because with our low budget, I would rather spend money on books than continuing ed for me. I am also grateful for the help we have received from the ICFL for our programs. Without their help we could not possibly continue them.</p> <p>Thanks to everyone at the ICFL for keeping us alive!</p>	Mar 22, 2011 4:35 PM
14	<p>I found the meeting to be informative. I was impressed by the work librarians in the state of idaho are able to with limited funding and sometimes limited staff. I was also impressed by the partnerships built by these professionals within their communities. Thank you for organising presenters from organisations with which libraries can partner. I appreciated Roger Stewart's presentation and found it enlightening to hear about the way in which research methodology impacts documents that in turn heavily influence policy. Very interesting.</p> <p>Thank you.</p>	Mar 22, 2011 4:38 PM
15	<p>These workshops are a chance to better myself with the knowledge that is needed to do a good job. The libraries purpose has changed so much in the last decade. These workshops help us to be able to move forward with the times. I learn something new everytime I attend one. I am thankful for these resourses and the opportunity it has given me to learn and be able to serve my community so much better. Our patrons are always thanking us for all we do for them. This is made possible by the workshops you provide for us.</p> <p>Thanks!!!!!! :)</p>	Mar 22, 2011 8:53 PM
16	<p>These workshops are invaluable to our staff in our somewhat isolated area. Its so nice to meet with other librarians from around the state and share ideas and new technologies. Its always a help to us in programming and new ideas to try out.</p>	Mar 22, 2011 10:37 PM
17	<p>Every class I have ever taken has helped me be a better librarian. Each new skill I learn causes me to be more enthusiastic about my position, which in turn causes my students to learn more and be more diligent in using library skills.</p>	Mar 23, 2011 6:55 AM
18	<p>I find it useful and important to keep abreast of technology in my work with teens. I really appreciate the ICFL's effort to teach us new technologies to help us encourage teen use of the library.</p>	Mar 23, 2011 7:35 AM
19	<p>Thank you very much for providing continuing education opportunities for Idaho librarians. Having these professional resources available to us makes it possible for library staff in small, rural towns to keep up-to-date in a rapidly changing library environment. We simply would not have stretched, learned, and increased service to our patrons without these educational opportunities and trainings. Every event we have attended from ICfL has been top-notch, implemented by thoughtful, intelligent and efficient staff members. Thank you!</p>	Mar 23, 2011 8:09 AM

20	<p>Please understand my doing the E-rate class ultimately benefits my customers because the money we do not spend on phone service we can then spend on items for them. But direct benefit from class to them: No.</p> <p>I do want to say, as a disabled person with limited income and old cars, I very much appreciate on-line classes. It is expensive and physically difficult for me to attend classes in big cities.</p>	Mar 23, 2011 9:08 AM
21	<p>The trainings that I receive from the Idaho Commission for Libraries helps me to stay current on the information that I need to know to best help the patrons in our library. Our library services have changed and expanded greatly due to trainings received. Please---keep them coming!!</p>	Mar 23, 2011 9:09 AM
22	<p>The Read To Me workshop I attended was very helpful to me. I am new in my position, and while I've always known that storytimes helped instill a love of reading, the workshop showed me how they can develop the skills that will help these children be successful readers and learners. Thank you very much.</p>	Mar 23, 2011 9:16 AM
23	<p>I gain knowledge that allows me to better serve my patrons. I feel that the classes and workshops offered through ICFL are a major plus in our small library. The trainings are vital to learning new and important information and skill to keep up with the ever changing library setting. Thank you for all you do to support nad help us.</p>	Mar 23, 2011 10:15 AM
24	<p>I enjoy the workshops and feel they are a great opportunity for me to increase my knowlege and give our patrons mor information and interesting things to help them</p>	Mar 23, 2011 10:27 AM
25	<p>I enjoyed both seminars that I attended, one for the storytime and one for the teens and technology. They were both very helpful and informative.</p>	Mar 23, 2011 10:52 AM
26	<p>It is important for librarians to keep up to date on current materials and trends in library services. Many librarians from small and rural districts would not have the opportunity to develop professionally without the Commission's workshops. From a personal viewpoint, as a fairly new librarian, I believe that I have received support and knowledge from these workshops that helps me provide a higher quality service to my patrons. I have gained so many great ideas from the workshops I have attended that have translated into great programs. It is also inspiring to have an opportunity to meet, share ideas, and collaborate with other Idaho librarians.</p>	Mar 23, 2011 10:53 AM
27	<p>The Teen and Technology workshop teaching how do use a flip camera and incorporate it into the creation of book trailers was well done, thorough and carried over into school use. My student and I learned skills we will use into the future.</p>	Mar 23, 2011 12:28 PM
28	<p>I am not very computer literate so any seminar that helps me understand how to fill out forms & decipher the tech language is very helpful!</p>	Mar 23, 2011 1:10 PM

10. Funding for the Commission's workshops is provided through the Library Services and Technology Act, Institute of Museum and Library Services and for the e-rate classes through the BTOP Grant/Gates Foundation. 29	I found the Read to Me workshop and conference very informative and motivating. Unfortunately, the Library Board and Directors at my library have decided to focus all new programming on adult and bilingual programs. Therefore, I will not have an opportunity to try for some of the exciting Bright Futures, or Daycare outreach opportunities I learned about at the conference. However, I will definitely continue to incorporate and develop my storytimes with the six literacy skills information, as well as hopefully develop and improve our summer reading program.	Mar 23, 2011 1:55 PM
30	I've always found that the workshops are very useful. I have lots of valuable information to add to my programs.	Mar 23, 2011 2:14 PM
31	Thank you for providing us with learning opportunities!	Mar 23, 2011 2:16 PM
32	The workshops provided by the Commission are crucial to the libraries in Idaho. I always make an effort to attend those offered in my area, and I am always disappointed when I have to miss the meetings. Online courses and webinars are great also, and I try to take advantage of them also.	Mar 24, 2011 9:17 AM
33	There was a lot of information about summer reading...but a lot of the information was geared toward public librarians. So, half a day training would have been fine for me. Thank you for the training:)	Mar 24, 2011 9:28 AM
34	I appreciate the opportunities to learn from the workshops provided. It helps to have opportunities for training on the limited budgets we have. It gives us the chance to stay on top of programs and technology that can help and serve our patrons.	Mar 24, 2011 9:59 AM
35	The professional information I have received and continue to receive through the ICfL is invaluable!! I have more information that is current and relevant for my patrons. Keep up the good work despite the budget crisis. You are worth it!!	Mar 24, 2011 11:43 AM
36	I have attended previous Read to Me Conference and felt this year's was much as the last. So a good refresher but not as much knew information gleaned for this attendee. But it is always very helpful to get to meet in person with other people from throughout the state to compare and share what is going on in their libraries, how they do stuff, etc. This chance to collaborate with fellow literacy advocates is invaluable, as we learn from each other, the good the bad and the do not try this! Also the help provided by the ICL staff is so beneficial and it is good to meet them in person, as they continue to help everyone be the best they can be...promoting reading and libraries. I am very impressed with the quality and commitment of the ICL staff. A good reason to live and work in Idaho..	Mar 24, 2011 2:15 PM
37	As a novice in youth services, the workshops on early literacy skills have been extremely helpful. Meeting with other service providers provided encouragement and resources. The presentations have helped me focus my story times on concrete learning goals, which benefits my patrons as well as providing a structure for my initial programs. Thank you!	Mar 25, 2011 12:44 PM

38	The knowledge received about available grants informed the local librarian that we were eligible for grants. We wrote and received three grants to help the children in our community. We will receive materials for summer reading program, Jump Start to Kindergarten materials, and books for Under Served Children to distribute this summer.	Mar 28, 2011 9:33 AM
39	Web junction seminars are a goal we have for the staff to update skills and knowledge through continuing education --while work bound. We hope to utilize a lot of the information to improve our library performance.	Mar 28, 2011 3:37 PM
40	For rural and remotely located libraries, these opportunities are invaluable. Our library is located over 100 miles from Boise and major urban centers. Being able to access the information and training on line is very helpful to our staff. Thank you.	Mar 29, 2011 11:30 AM
41	The workshops are very helpful.	Mar 29, 2011 2:55 PM
42	Every training that you provide helps me do a better job and benefits those that I serve. Thanks!	Mar 30, 2011 3:37 PM
43	I find the workshops provided by the ICFL very valuable. The knowledge and support gained through these workshops adds greatly in helping me provide better service for our patrons. I hope to be able take advantage of future workshops.	Mar 30, 2011 8:20 PM
44	Thank you very much for the opportunity.	Mar 31, 2011 2:32 PM
45	The ABLE and SABLE courses are really an invaluable resource for those of us who are new librarians. I have taken several, and they have allowed me to provide better services to our patrons.	Apr 1, 2011 11:56 AM
46	Keep up the great work! You all provide a valuable service to Idaho libraries!	Apr 2, 2011 11:34 AM
