Essay:

Gone

“A most remarkable book” are the words that spout from my mouth after reading Gone. Soon I had an insatiable urge to read more about this dystopia Michael Grant had crafted so cleverly. Not long after I began Hunger, I knew this was no normal teen Sci-Fi/Fantasy. With moments of pure terror, and the next elation, I devoured this phenomenal series. In a world where 15 is suddenly the new 90, this story really pulls you in. Fantasy, Sci-Fi, Romance, Dystopia, these novels envelop every one of my favorite genres in a new primal fashion. With a world so vivid and raw, the question is why wouldn't I have chosen these novels?
