

Searching EBSCOhost®

Features & Functionality at a Glance...

- 1 Breadbox**
Selectively remove terms from the search string
- 2 Exposed Limiters**
Refine a search without navigating away from the results page
- 3 Date Slide Limiter**
Quickly filter results to display a particular date range
- 4 Source Feature**
All available source types that make up a result list are displayed, allowing users to narrow results by a specific type of publication
- 5 Enhanced Clustering**
Filter search results by suggested related subject matter
- 6 Search History**
Search history and alerts are found directly above the results list, and search history can be expanded and viewed in conjunction with the results list
- 7 Sorting Results**
Results can be sorted by relevance, date, author or source

The screenshot shows the EBSCOhost search results page for the query 'global warming'. The interface includes a search bar at the top with the query and search buttons. Below the search bar, there are navigation options like 'Page: 1 2 3 4 5 Next' and 'Relevance Sort'. The main results area displays three search results, each with a numbered callout (1-11) pointing to specific features: 1. 'Breadbox' (removing terms from the search string), 2. 'Exposed Limiters' (refining search), 3. 'Date Slide Limiter' (filtering by date), 4. 'Source Feature' (filtering by source type), 5. 'Enhanced Clustering' (filtering by subject matter), 6. 'Search History' (viewing search history), 7. 'Sorting Results' (sorting by relevance), 8. 'Preview Pane' (previewing records), 9. 'Relevancy Indicator' (relevance score), 10. 'Folders' (organizing articles), and 11. 'Related Images' (previewing thumbnail images). The results list includes titles, authors, publication details, and options for full-text access (HTML or PDF).

- 8 Preview Pane**
Hover over icons to preview records without leaving the results page
- 9 Relevancy Indicator**
Enhanced algorithms determine how relevant the article is based on your search term
- 10 Folders**
Organize articles of interest—articles can be added or removed directly from the results list or from the preview pane
- 11 Related Images**
Preview thumbnail images from applicable full-text articles and EBSCO's *Image Collection*
