Don't Shut Hush, Hush!

Have you ever read a book/ you just couldn't put down? That's how Becca Fitzpatrick's book, *Hush, Hush*, was for me. I really enjoyed it because nothing exciting or dangerous ever happens in my life. When I read *Hush, Hush*, I can escape to a whole different world. I love how this book has a variety of feelings. The love, the hate, the loyalty; it all clashes together to make conflicts that are almost impossible to overcome. Through the book I often found myself asking how someone can love somebody else so much, but at the same time want to hurt them for selfish reasons. I learned why someone would take their own life just to escape the awfulness of dying by someone else's hand, and to give another a chance at living a normal life.

I really loved the plot in this book. It was very entertaining and allowed me to escape from everyday life whenever I picked it up. I have fallen in love with this series and I want more people to know about it.
