**Project or Team Name:** Teen Read Week 2011

**Book Title/Author:** Maximum Ride, The Angle Experiment/ James Patterson

**Library Name:** Gooding Public Library

**Essay:** I like the book “Maximum Ride, Angle Experiment” by James Patterson, because it is an “on the edge of your seat book.” I also liked it because it is a long series. I recommend it to friends all the time.

This book is about kids. Kids with wings like angles. There are six of the “angle children”. They are being hunted by Erasers (dog like humans). They live alone. Their “father” was out looking for plants to experiment with and never came back. The main character is named Max (short of Maximum). She is the oldest of the kids. Will she be able to save them? Will they perish? You will have to read it and find out.
