

Libraries are for making..... Submission Template

Project Information:

- Library Name: Middleton High School Library Contact: Peggy Rabe
- A short description about the creation. What media, computer program, or design method was used:
- We made Origami figures using two books and also online information. My library aides all made at least one, and then other students who had free periods made some as they saw the sign and the display. I found three little Origami frogs on the floor in a corner at one point. It was a fun way to let off some stress at the end of the quarter. I had some colored paper that the students cut into a square before beginning their design.
- beginning their design.(Place image or URL below)
