## **\$200,000 Awarded to Schools throughout Idaho**

**BOISE, ID** – The Idaho Commission for Libraries (ICfL) awarded \$200,000 to 47 elementary schools throughout Idaho for the purchase of books to serve students pre-kindergarten through first grade and to allow five schools to open their libraries during the summer. The funds were in the form of mini-grants, for amounts between \$1,000 and \$5,000, each.

The goals of the grant program were: to increase the amount of reading done in homes of children in developmental preschool programs, kindergarten, and first grade; to increase access to age-appropriate, quality, nonfiction and fiction titles in elementary school libraries; and to increase the number of children reading on grade level.

“A child’s educational foundation is established early, and the amount of reading done in the home is the single most important factor in the development of a child’s literacy skills,” said State Librarian Ann Joslin. “But too many of our youngest Idahoans are at a disadvantage in this critical area because their elementary school lacks the resources to allow students to check books out and take them home.” Joslin continued, “The mini-grants awarded through the ICfL’s Read to Me program will give students access to the print materials that will form the base of their lifelong learning.”

There were 73 application requests, totaling \$320,500. The ICfL received \$200,000 in funding from the Idaho state legislature to fund 47 school mini-grants.

Forty-two grants, totaling \$175,000, were awarded to the following elementary schools. In addition, five schools were awarded \$5,000 grants so their libraries could be open during the summer. This access to books minimizes the “summer slide” of learning loss for students.
