

**Name:**

**Name of Recycle Head:**

**Prediction (a guess): What do you think will happen?**

<b>Date</b>	<b>What you did</b>	<b>Observations</b> Describe- colors, smell, touch	<b>What it looks like</b> (draw & color)
2/9/2013	Put soil in can, added grass seed and watered. Put in warm or sunny place to watch what happens. A kitchen window sill works good. Check every day to see if any changes are taking place.  Be sure and record the date when you notice something happening. How long does it take the grass seed to germinate (sprout)? Do you need to change the location of your Recycle Head?	Recycled metal silver colored tin can, washed out. Colored paper body parts and glued onto can to make a funny person. Brown dirt with little white round things in it.
