Essay:

I chose the Star Wars book because I love Star Wars. My parents showed me the movies when I was little and I have liked it ever since, so I decided to read the books.

The books move very quickly and they have battle after battle I them. I also think I get more detailed information about the characters. Star Wars books always have the fight between good and evil. They tell a story of Anakin Skywalker's life. He starts out on the path to becoming a Jedi, but is turned to the dark side. In the end he comes around and saves his son, Luke, and the whole galaxy from the evil Emperor. This is just one of the reasons that I love the Star Wars books and that is why my READ poster rocks!
