

Designer Fashion BY...

Taysa vanorden

This book was inspired by my interest of art & fashion. I read the book 'Spoiled' and it described a lot of outfits the characters wore. I decided it would be fun to draw all of those outfits, but then create my own outfit next to each one. The outfits I created were inspired by the book's. They are similar to the book's, but not exact. In the process of making this book, I learned a form of art & I'm starting to like the idea of a career in fashion.
