### Outcomes:

1) Participants will increase their knowledge of why it is important for children to read by third grade, the impact of third-grade reading proficiency on college and career readiness, and the issues that impede grade-level reading proficiency.

2) Participants will identify others in their communities working on grade-level reading proficiency, and develop 1-2 next steps within their own organizations to address the issues above.

3) Each session will generate lists of individuals and organizations who are interested in forming coalitions in their communities to further the goals of the Campaign for Grade Level Reading.
