

# 2018 Summer STEM from Your Library Kids Evaluation

As part of this year's summer STEM from Your Library evaluation, we are asking for feedback from the kids as well as their adult caregivers/parents.

***Please track the total number in attendance each week  
AND kids evaluation responses over a 5 week period.***

## Kids Evaluation: *(choose one of the methods below)*

1. Set up the fish bowls & wooden tokens with the statement “**Today, I learned something new**” in between. Kids should indicate either a yes or no answer by depositing a wooden token in the jar that best answers the statement.

2. Hand out the coloring sheet with the statement “**Today, I learned something new.**” Kids should indicate either a yes or no answer by coloring or marking the circle that best answers the statement. The coloring sheet can be found at <http://libraries.idaho.gov/files/evaluation%20for%20kids.pdf>.

# 2018 Summer STEM from Your Library; Kids' Evaluation Tally Sheet

Name of my library \_\_\_\_\_

My Name \_\_\_\_\_

Using the table below, please enter the data collected from 5 weeks of kids' evaluations. You should have used either the fishbowl/wooden token or coloring sheet survey method.

Week	Total attendance	# of YES votes	# of NO votes
