Agenda

Virtual conference pro-tips:

- Arrive early! We'll be there to help make sure everything works.
- Mute your microphone whenever you aren't speaking. Your background noise may cancel out what others are saying.
- Unmute your video. It is important for everyone to be able to who is speaking. Also, don't forget to check what's behind you in the video frame!
- Mute audio and video when you step away from the meeting.

Tools we'll be using

In order to maximize our time together in this virtual Meetup, we are utilizing a variety of online tools.

ZOOM

We will be hosting the MOSS Meetup predominately in a Zoom Meeting. Hosting virtual meetings in Zoom allows participants to see and hear each other with video and audio connections, chat in a group or privately, and to break out into smaller groups. Test your connection here: https://zoom.us/test

FLIPGRID

Flipgrid is an educational video sharing platform that allows you to quickly record and post your introductions and any innovative ideas you'd like to share with the group before the Meetup. Post/view introductions here: INTRODUCTIONS Post/view innovative ideas here: INNOVATIVE IDEAS

PADLET

Padlet is a web application that allows users to post notes on a digital wall. We'll be using Padlet to provide opportunities to connect with other participants and also to collect feedback.

Access the <u>Asks & Offers Padlet here</u>. Access the <u>Where Are You Joining Us</u> <u>From? Padlet here</u>:.

MOZILLA HUBS

Networking Room A will be in Mozilla Hubs, a virtual meeting space that allows participation in or out of VR.

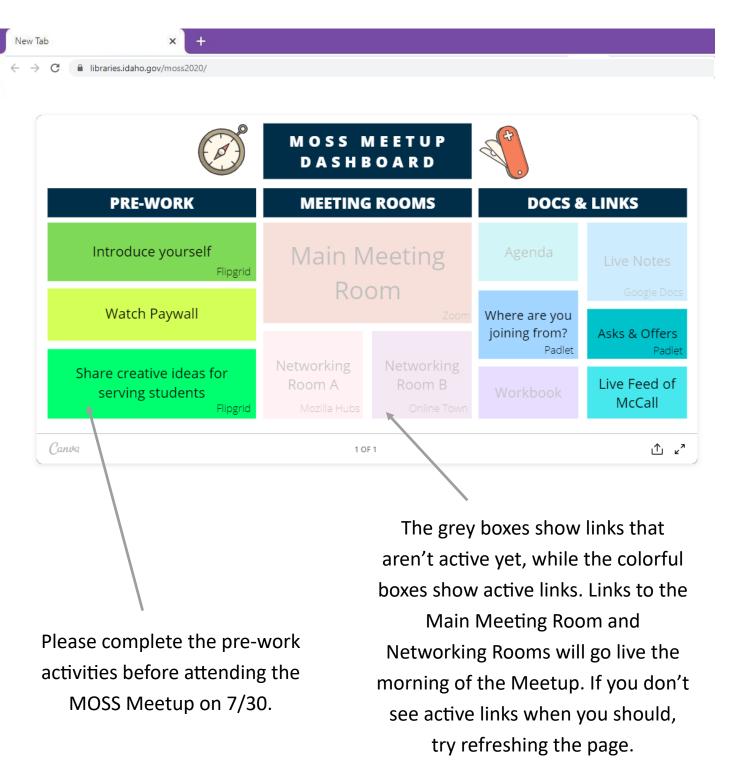

ONLINE TOWN

Networking Room B will be in <u>The</u>
<u>Online Town</u>, a virtual space that lets
people hold separate conversations
and lets you walk in, out and around
those conversations

The MOSS Meetup Dashboard

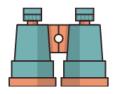

All the links you'll need to get ready for and to participate in the MOSS Meetup will be on the Dashboard:
