

# Description of OCLC Services

The chart below identifies the OCLC tools available to participating LiLI Unlimited libraries based on the service package selected. The package options include:

- Cataloging and Metadata Subscription – known as *full cataloging* in previous LiLI-U program,
- WorldShare ILL – known as simply *ILL* or *WorldCat Resource Sharing* previously,
- Idaho’s Managed ILL Service – new to LiLI-U, and
- Combined Cataloging and Metadata Subscription with WorldShare ILL.

A description of each service follows the chart.

	Cataloging, Metadata, & WorldShare Services	Cataloging & Metadata Services	WorldShare ILL Services	Managed ILL Service	No Cataloging or ILL Service
Connexion for cataloging (includes CatExpress)*	✓	✓			
Z39.50 Cataloging*	✓	✓			
WorldShare Record Manager*	✓	✓			
WorldShare Collection Manager*	✓	✓			
WorldShare Interlibrary Loan	✓		✓		
ILL Fee Management	✓		✓	✓	
Idaho ILL Management Center				✓	
Holdings Registration			✓	✓	
CONTENTdm Quick Start	✓	✓			
OCLC Usage Statistics	✓	✓	✓	✓	
WorldCat Catalog (FirstSearch & WorldCat.org)	✓	✓	✓	✓	✓

\*These services are bundled as part of OCLC’s Cataloging and Metadata Subscription.

### [Connexion for Cataloging](#)

Copy catalog most of your new materials using WorldCat. Plus, tools for original cataloging, authority records, and alerts for updated MARC records to keep the local ILS current.

### [Z39.50 Cataloging\\*](#)

Access WorldCat to search and retrieve MARC records for cataloging, edit records in their local systems, set holding information on WorldCat, and order cataloging card sets for their local libraries.

### [WorldShare Record Manager\\*](#)

Create new and enrich existing items in WorldCat with efficient, record-at-a-time metadata management for your physical and electronic materials using either a MARC 21 editor or a Text View editor. Plus, with Record Manager, you can set and delete WorldCat holdings and export bibliographic records.

### [WorldShare Collection Manager\\*](#)

Helps you manage your library's metadata for electronic and print resources on a collection level with WorldCat's knowledge base. Tools allow you to receive and edit the information you need to save staff time and help users find and access resources. Collection manager is the updated method for Batchloading.

### [WorldShare Interlibrary Loan](#)

Connects you to thousands of libraries whose entire collections can be viewed at a glance in WorldCat. You can automatically incorporate your review and deflection policies, shipping information, lists of favorite lenders and other information into each request to further streamline your processes.

### [ILL Fee Management](#)

Reconcile resource-sharing charges and payments through your OCLC invoice. If you're a net borrower, you can pay fees with one payment each month. If you're a net lender, the remaining balance goes toward your invoice.

### [Idaho ILL Management Center](#)

Submit requests to borrow materials from other libraries through a central site housed at the Idaho Commission for Libraries. A fee of \$4 per request is billed to the borrowing library using the ILL Fee Management system.

### [Holdings Registration](#)

Register your collection holdings in WorldCat for lending, to analyze your collection using the Collection Evaluation service, or make your holdings visible in WorldCat.org.

### [CONTENTdm quick start](#)

Receive an OCLC-hosted CONTENTdm website with the ability to store and manage up to 100 items. With CONTENTdm, build and showcase your digital collections on your personalized website, making them discoverable to users around the world.

### [OCLC Usage Statistics](#)

Show your stakeholders how much your users and other libraries rely on your ability to support ILL. Analyze borrowing and lending patterns in your library to refine staffing, workflows, policies and preferences.

### [WorldCat \(FirstSearch and WorldCat.org\)](#)

Give your users the power to quickly find the exact resources they need in thousands of library collections around the world, through precision searching of WorldCat, the largest database of library bibliographic information.
