

# 2019

## ANNUAL PUBLIC LIBRARY STATISTICS

COMMISSION FOR LIBRARIES

Idaho  
Commission  
for Libraries

The **2019 Idaho Public Library Statistics** is a compilation of input and output measures with other statistics in reference to Idaho's Public Libraries covering the period of October 1, 2018 to September 30, 2019.

*Published October 2020*

Data compiled at the Idaho Commission for Libraries by  
Karen LaMotte, Technical Records Specialist, [karen.lamotte@libraries.idaho.gov](mailto:karen.lamotte@libraries.idaho.gov)

For questions on the survey and results contact:  
Jamie Mott, Grants Contracts Officer & State Data Coordinator,  
208-639-4164, [jamie.mott@libraries.idaho.gov](mailto:jamie.mott@libraries.idaho.gov)

# Quick Facts About Idaho Public Libraries

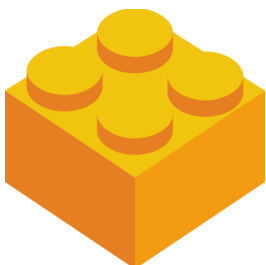

From the 2019 Idaho Public Library Statistics

## Libraries Are For Everyone

**8,291,157 people** visited Idaho's **150 Public**  
**library branches** and **12 bookmobiles** in FY 2019

**1,027,183 people**  
attended one of the  
**40,593 programs**  
held in libraries.  
That's the same as  
**111 programs**  
**every day**  
over the past year.

**890,519 people**  
have a current  
library card.  
That's about  
**50 percent**  
of the  
population of  
Idaho.

**5,592 different**  
**volunteers**  
donated  
**102,090 hours**  
of their time to  
their local  
library.

# Quick Facts About Idaho Public Libraries

From the 2019 Idaho Public Library Statistics

Idaho Public Libraries have **6,091,298** total items in their collections.

**20%**  
Downloadables

**69%**  
Books

**6%**  
Videos

**4%**  
Audios

*Physical items still make up a majority  
of library collections.*

Public libraries circulated  
**14,455,303** physical &  
**1,925,472** electronic  
items last year.

**<1%**  
Other Materials  
(Video games, puzzles,  
hotspots, ukuleles, bicycles,  
cake pans, and more! )

Average per capita Idahoans  
pay to support their public  
library.

Library internet use increased  
**180%** from the previous year,  
with **2,409,083** uses of library  
wireless networks.

# Material Circulation

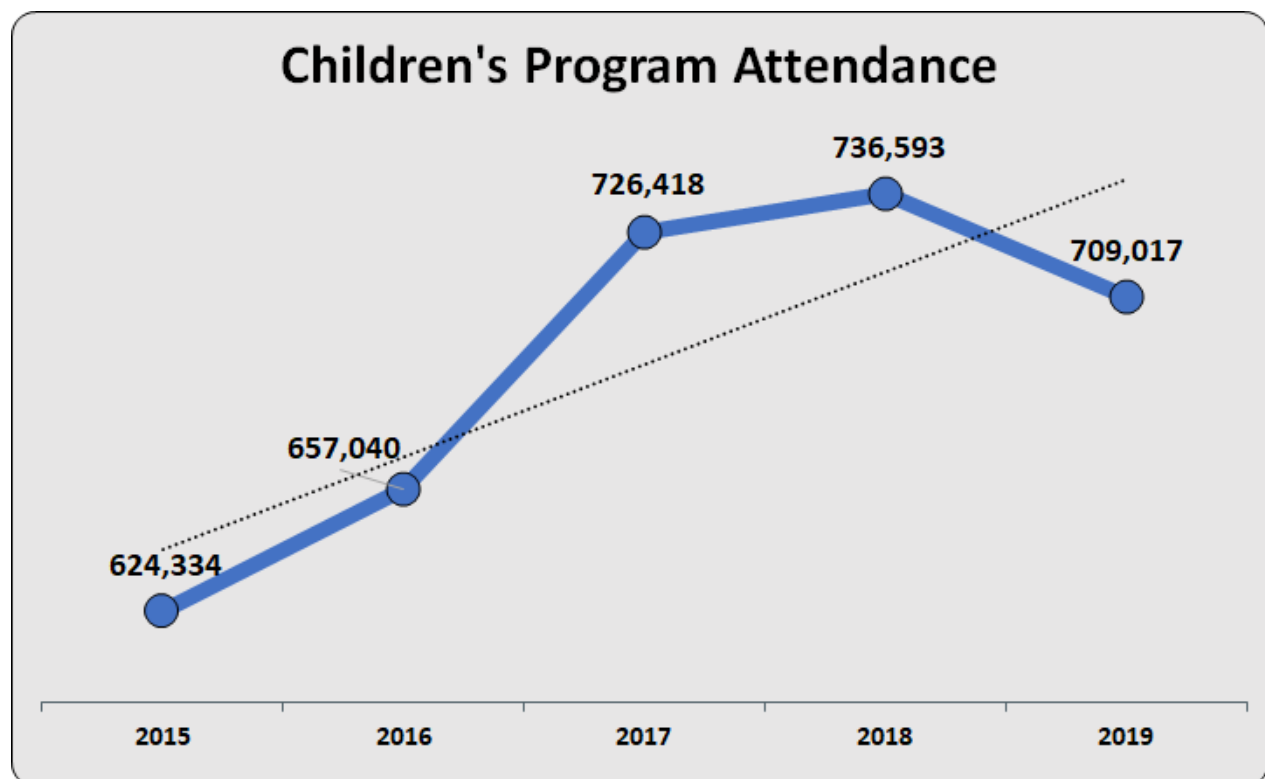

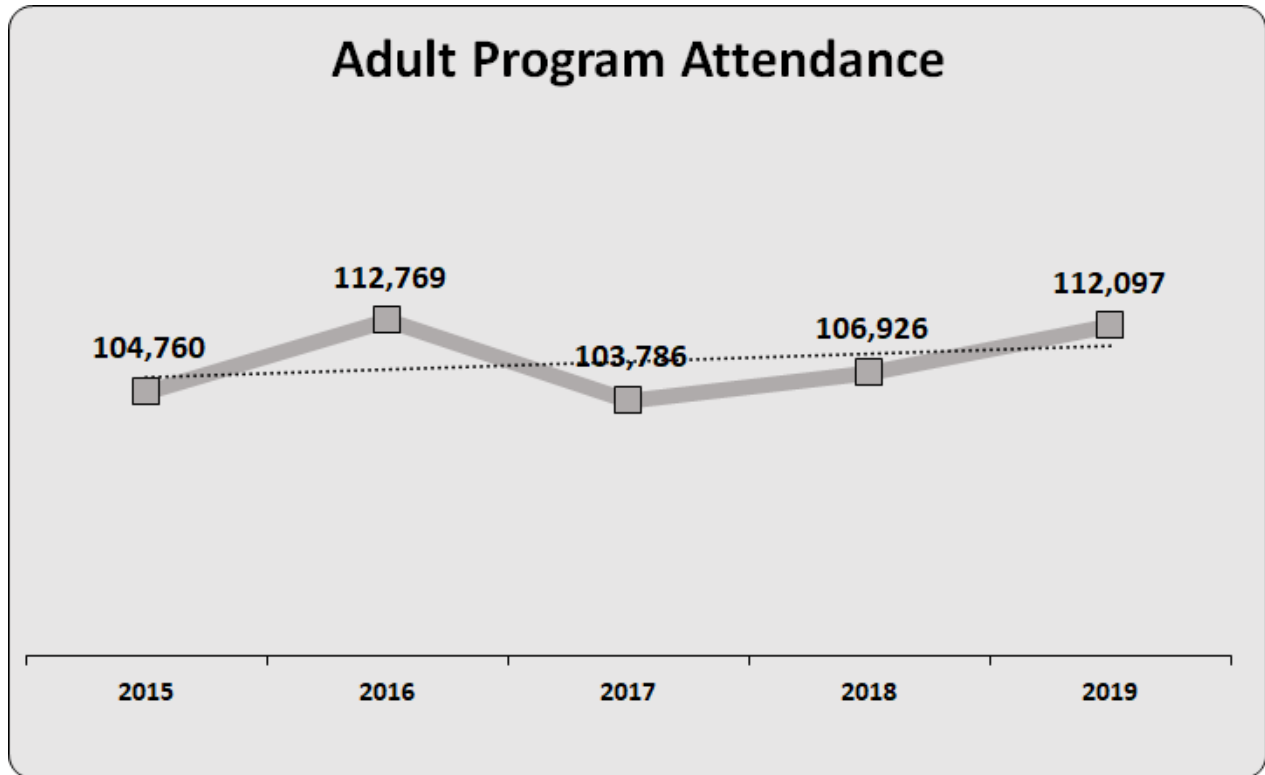

# Income & Expenditures

# Program Attendance

## Program Attendance (cont.)

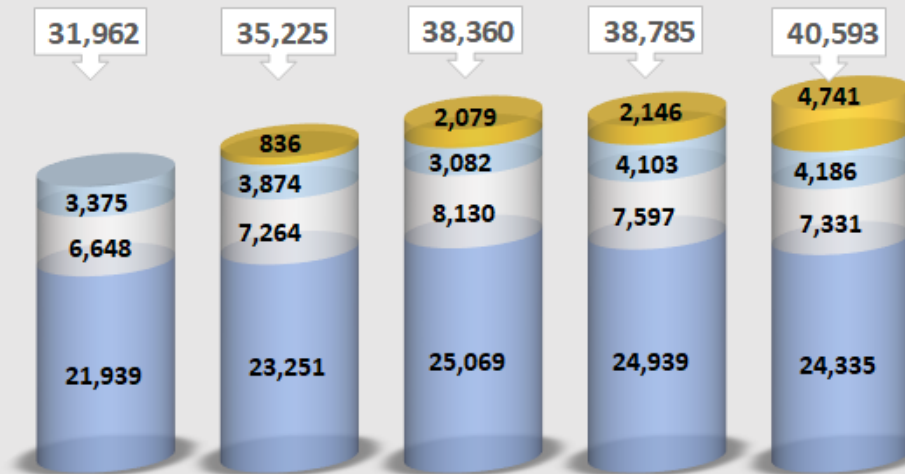

# Library Programs

## Library Programs Held per Year by Group

On average, 111 library programs were held each day throughout the state.

### ANNUAL TOTALS

	2015	2016	2017	2018	2019
Totals	31,962	35,225	38,360	38,785	40,593
Family		836	2,079	2,146	4,741
Young Adult	3,375	3,874	3,082	4,103	4,186
Adult	6,648	7,264	8,130	7,597	7,331
Children	21,939	23,251	25,069	24,939	24,335

# Interlibrary Loans

## Interlibrary Loans

Reported loans in recent years indicate a downward trend. However, updated reporting criteria for 2019 to include courier and consortium loans reflects a much larger exchange of items and a shift to previously unreported types of loans.

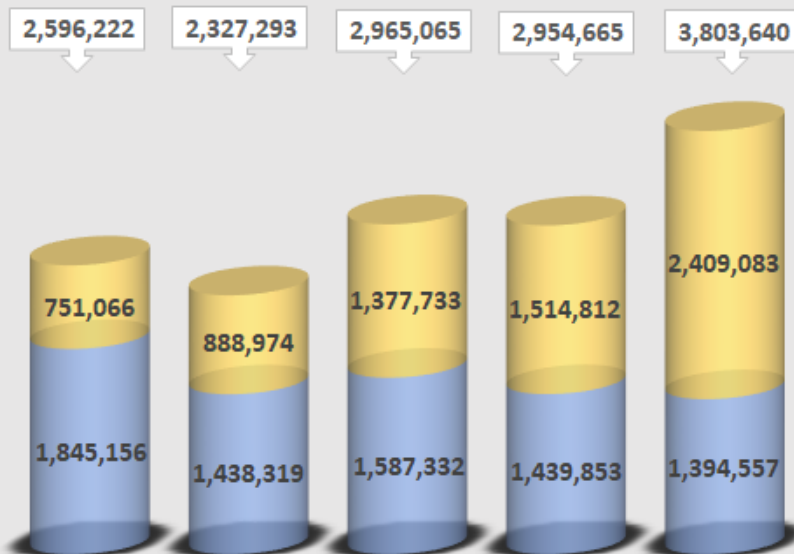

# Internet Use

## Internet Use

Wireless use in public libraries continued to increase and accounted for more than 63% of all internet access in the library for 2019.

***ANNUAL TOTALS***

## Definitions of Performance Measures

This section defines the various measures that are calculated and presented throughout the data tables.

<b>Combined Population Served</b> Legal Population + Contract Population	A library's COMBINED POPULATION SERVED is used as the divisor in calculating all per capita measures
<b>Total Income per Capita</b> <b>Total Expenditures per Capita</b> <b>Staff Expenditures per Capita</b> <b>Collection Expenditures per Capita</b> <b>Other Expenditures per Capita</b> Example: <b>Total Income ÷ Combined Population</b>	These input measures reflect the relative level of financial support that libraries receive, as well as the way in which funding resources are distributed in major budget categories.
<b>Turnover Rate [Ratio]</b> Annual Circulation ÷ Total Items Held	This output measure is a ratio that relates the number of items circulated to the overall size of the collection. It is the total circulation divided by the number of items held in the collection at the end of the year. The measure indicates the average number of times each item in the collection was circulated, assuming that circulation was evenly distributed among the library's holdings.
<b>Circulation per Capita</b> Annual Circulation ÷ Combined Population	This output measure relates the number of items circulated to the number of persons in the library's combined service area. It is the annual circulation divided by the combined population served.
<b>ILL Net Lending Rate</b> ILLs TO ÷ ILLs FROM	This output measure relates the number of materials provided to other libraries through interlibrary loan to the number of materials borrowed from other libraries through interlibrary loan. It is the number of items loaned divided by the number of items borrowed. As a simple ratio, the measure indicates whether the library does more borrowing or more lending. A number greater than 1.0 indicates the library does more lending; a number below 1.0 indicates the library does more borrowing.

## Definitions of Performance Measures (cont.)

<p style="text-align: center;"><b>ILLs per 1,000 Circulation</b></p> <p style="text-align: center;">ILLs FROM x 1,000 ÷ Annual Circulation</p>	<p>This output measure relates the number of materials borrowed from other libraries to the number of materials from the local collection circulated to borrowers. It is the number of materials borrowed from other libraries through interlibrary loan divided by total circulation multiplied by 1,000.</p>
<p style="text-align: center;"><b>Visits per Capita [annual]</b></p> <p style="text-align: center;">Annual Visits ÷ Combined Population</p>	<p>This measure relates the number of visits made to the library to the number of persons in the library's combined service area. It is attendance at the library during the year divided by the combined population served by the library. The measure reflects actual visits to the library.</p>
<p style="text-align: center;"><b>Electronic Use per Capita</b></p> <p style="text-align: center;"># of Users of Electronic Resources ÷ Combined Population</p>	<p>This measure relates the number of users of Electronic Resources in the library's combined service area. It is the number of users of electronic resources during the year divided by the combined population served by the library.</p>
<p style="text-align: center;"><b>Reference per Capita [annual]</b></p> <p style="text-align: center;">Annual Reference ÷ Combined Population</p>	<p>This output measure relates the number of information contacts in which a staff member involves information sources to the number of persons in the library's Combined Population Service Area. It is the number of reference transactions per year divided by the total population served by the library. The measure indicates the average number of times a resident of the service area received staff assistance in using information sources available or accessible through the library.</p>
<p style="text-align: center;"><b>Total FTE Staff per 1,000 Population</b></p> <p style="text-align: center;">FTE Staff (FTE Librarians) x 1,000 ÷ Combined Population</p>	<p>This input measure relates information about Staff to Population Served expressed in a decimal. One <u>full time equivalent (FTE)</u> is one paid employees working 40 hours per week.</p> <p>Examples: 40 hours per week / 40 hours = 1 FTE 20 hours per week / 40 hours = .5 FTE</p>

The 2019 Edition of the Idaho Public Library Statistics includes data gathered by the Idaho Commission for Libraries using the Public and District Library Annual Statistical Report Form, ("Report Form"). The Report Form report reflects:

1. All monies available to a library during the report year, regardless of the source of funds;
2. All expenditures made by the library, regardless of the source of funds;
3. Populations served within legal service area and also by contract; and
4. Collections, services, and staff provided during the report year.

The Report Form complies with the Federal/State Cooperative Systems for Public Library Data (FSCS).

In addition to the actual data reported, a few performance measures have been calculated for each library. Selected per capita and percentage figures have been generated by computer and are presented in columns next to the data (numerators) from which these measures were derived.

It is important to remember that performance measures and comparative statistics are not absolutes. There are no right or wrong measures and no single measure tells a complete story. An individual library's statistics should be considered in the context of its roles, goals, and objectives. Be creative in thinking about how the information contained in these numbers can help you improve library services. Use them to analyze your services and to work with your local government and your public.

### **I. FSCS Public Library Definition**

A **public library** is an entity that is established under state enabling laws or regulations to serve a community, district, or region, and that provides at least the following:

An organized collection of printed or other library materials, or a combination thereof;

Paid staff;

An established schedule in which services of the staff are available to the public;

The facilities necessary to support such a collection, staff, and schedule; and

Is supported in whole or in part with public funds.

### **II. Administrative Only and Contracting Library Districts**

During the last few years, there have been only two library districts that contracted to have all services provided to their patrons by other libraries, namely Blackfoot Rural District and Bonneville County District. These "administrative only" districts are legally established boards and levy taxes, but have no facilities, collections, or other services; consequently, they do not meet the criteria of the FSCS Public Library Definition given above. Data for "administrative only" districts are always included with the data of the libraries that provided services to their patrons, Blackfoot Public and Idaho Falls Public, respectively.

Several other Idaho public libraries are party to some type of contract to provide or receive services from other libraries. Specific data for contracts are given, where applicable, in columns labeled Contract Population, Contract Income, and Contract Expenditures.

### **III. Accuracy and Completeness of the Statistics**

The data in all tables are as the local libraries reported them to the Idaho Commission for Libraries except where obvious inconsistencies were spotted. In most cases, the local library provided revised figures.

### **IV. Population Data**

Population figures have been provided by responding libraries. Partial county district populations have been adjusted in counties where it is possible to calculate the population by subtracting the populations of cities with tax supported libraries. There are, however, several districts where other methods for estimating population must still be used, since their boundaries do not match Census “block” units. However, the authoritative source for all population questions is always the U.S. Census Bureau via the State Data Centers Program. The URL is: <http://www.census.gov/sdc/>

### **V. Totals, Means, Medians, Percentages, and Per Capitas**

Means for raw data elements such as “Annual Circulation” or “Central Libraries” are calculated by dividing the State Totals by the number of reporting libraries. This is the common Arithmetic Mean, which is commonly used to represent the typical library. A true Arithmetic Mean is also calculated for Per Capitas, such as Circulation per Capita or Operating Income per Capita.

As an “average,” the Median is much less sensitive to extreme differences than the Mean. The median is defined as the “exact middle” figure. To derive the median, each column of figures is arranged in descending order and then divided in half. For columns having an odd number of entries, the median is the middle reported figure. For columns having an even number of entries, the median is calculated by dividing the sum of the two middle figures by 2.

### **VI. Doubling Errors**

An attempt has been made to correct a “doubling” error that occurs at the bottom line, especially in columns containing data on Population, Funding, and Expenditures. If not corrected, figures for a contracting library may be counted twice- once on its own line, and once again on the providing library’s line. In the population tables, the column for Contract Population will sometimes show both plus and minus figures. This allows the reporting of more accurate population data across the page and keeps the “doubling” effect from occurring when totals are added down the page. Figures which are subject to doubling effects are enclosed in boxes.

In the “Total Income” and “Total Operating Expenditures” columns, the doubling error has been corrected manually on county subtotal lines and again at the bottom line. Items that have been so corrected are again placed in boxes.

**Assistance in analyzing the statistics and performance measures is available from the Idaho Commission for Libraries.**
