Quick Facts About Idaho Public Libraries

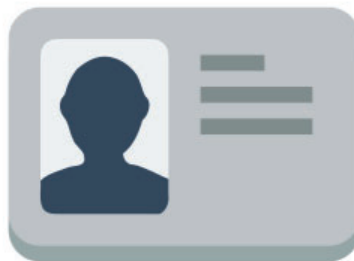

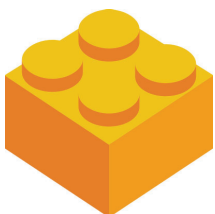

From the 2021 Idaho Public Library Statistics

Libraries Are For Everyone

3,779,461 people visited Idaho's **162 Public libraries, branches, and bookmobiles** in **FY 2021**

480,454 people attended one of **20,049 programs** held in libraries. That's the same as **55 programs every day** over the past year.

795,704 people have a current library card. That's about **43 percent** of the population of Idaho.

2,586 different volunteers donated **54,745 hours** of their time to their local library.

Quick Facts About Idaho Public Libraries

From the 2021 Idaho Public Library Statistics

Idaho Public Libraries have **8,362,950** total items in their collections.

43%

Downloadables

57%

Physical Items

Physical items still make up a majority of library collections.

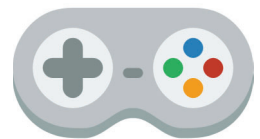

5%

Videos

2%

Audios

<1%

Other Materials

(Video games, puzzles, hotspots, ukuleles, bicycles, cake pans, and more!)

Public libraries circulated **10,547,076** physical & **3,645,680** electronic items last year.

\$44.37

Average per capita Idahoans pay to support their public library.

Library internet use **increased 14%** from the previous year, with **1,849,997** uses of library public internet services.

COVID-19 Pandemic Response by Libraries for the 2021 Reporting Period

Services	2021		2020		% Change
	Yes	No	Yes	No	
1. Did you close library/outlets during the pandemic?	41%	59%	97%	3%	-56%
2. Did you provide Public Services during the pandemic?	70%	30%	86%	14%	-16%
3. Did you issue electronic library cards during the pandemic?	36%	64%	38%	62%	-2%
4. Did you provide reference service during the pandemic?	62%	38%	75%	25%	-13%
5. Did you provide "outside" service during the pandemic?	68%	32%	83%	17%	-15%
6. Did you <i>add</i> external WIFI access during the pandemic?	83%	17%	81%	19%	2%
7. Did you <i>increase</i> external WIFI access during the pandemic?	51%	49%	52%	48%	-1%
8. Did you re-assign staff during the pandemic?	5%	95%	6%	94%	-1%

Closures & Limited Occupancy			
	Average*	Median*	Range*
9. How many weeks were library/outlet(s) & bookmobiles closed during the pandemic?	3	0	0-52
10. How many weeks did your library/outlet(s) have limited occupancy during the pandemic?	9	0	0-52

* Does not include 3 bookmobiles/outlets that reported zero "Annual weeks open"

Definitions of Performance Measures

This section defines the various measures that are calculated and presented throughout the data tables.

<p>Total Population Served Legal Population + Contract Population</p>	<p>A library's TOTAL POPULATION SERVED is used as the divisor in calculating all per capita measures</p>
<p>Total Income per Capita Total Expenditures per Capita Staff Expenditures per Capita Collection Expenditures per Capita Other Expenditures per Capita</p> <p>Example: Total Income ÷ Total Population</p>	<p>These input measures reflect the relative level of financial support that libraries receive, as well as the way in which funding resources are distributed in major budget categories.</p>
<p>Turnover Rate [Ratio]</p> <p>Annual Circulation ÷ Total Items Held</p>	<p>This output measure is a ratio that relates the number of items circulated to the overall size of the collection. It is the total circulation divided by the number of items held in the collection at the end of the year. The measure indicates the average number of times each item in the collection was circulated, assuming that circulation was evenly distributed among the library's holdings.</p>
<p>Circulation per Capita</p> <p>Annual Circulation ÷ Total Population</p>	<p>This output measure relates the number of items circulated to the number of persons in the library's combined service area. It is the annual circulation divided by the combined population served.</p>
<p>ILL Net Lending Rate</p> <p>ILLs TO ÷ ILLs FROM</p>	<p>This output measure relates the number of materials provided to other libraries through interlibrary loan to the number of materials borrowed from other libraries through interlibrary loan. It is the number of items loaned divided by the number of items borrowed. As a simple ratio, the measure indicates whether the library does more borrowing or more lending. A number greater than 1.0 indicates the library does more lending; a number below 1.0 indicates the library does more borrowing.</p>

Definitions of Performance Measures (cont.)

<p>ILLs per 1,000 Circulation ILLs FROM x 1,000 ÷ Annual Circulation</p>	<p>This output measure relates the number of materials borrowed from other libraries to the number of materials from the local collection circulated to borrowers. It is the number of materials borrowed from other libraries through interlibrary loan divided by total circulation multiplied by 1,000.</p>
<p>Visits per Capita [annual] Annual Visits ÷ Total Population</p>	<p>This measure relates the number of visits made to the library to the number of persons in the library's combined service area. It is attendance at the library during the year divided by the combined population served by the library. The measure reflects actual visits to the library.</p>
<p>Electronic Use per Capita # of Users of Electronic Resources ÷ Total Population</p>	<p>This measure relates the number of users of Electronic Resources in the library's combined service area. It is the number of users of electronic resources during the year divided by the combined population served by the library.</p>
<p>Reference per Capita [annual] Annual Reference ÷ Total Population</p>	<p>This output measure relates the number of information contacts in which a staff member involves information sources to the number of persons in the library's Combined Population Service Area. It is the number of reference transactions per year divided by the total population served by the library. The measure indicates the average number of times a resident of the service area received staff assistance in using information sources available or accessible through the library.</p>
<p>FTE Staff per 1,000 Population FTE Staff (FTE Librarians) x 1,000 ÷ Total Population</p>	<p>This input measure relates information about Staff to Population Served expressed in a decimal. One <u>full time equivalent (FTE)</u> is one <u>paid</u> employees working 40 hours per</p> <p>Examples: 40 hours per week / 40 hours = 1 FTE 20 hours per week / 40 hours = .5 FTE</p>

Explanations

The 2021 Edition of the Idaho Public Library Statistics includes data gathered by the Idaho Commission for Libraries using the Public and District Library Annual Statistical Report Form, (“Report Form”). The Report Form report reflects:

1. All monies available to a library during the report year, regardless of the source of funds;
2. All expenditures made by the library, regardless of the source of funds;
3. Populations served within legal service area and also by contract; and
4. Collections, services, and staff provided during the report year.

The Report Form complies with the Federal/State Cooperative Systems for Public Library Data (FSCS).

In addition to the actual data reported, a few performance measures have been calculated for each library. Selected per capita and percentage figures have been generated by computer and are presented in columns next to the data (numerators) from which these measures were derived.

It is important to remember that performance measures and comparative statistics are not absolutes. There are no right or wrong measures and no single measure tells a complete story. An individual library’s statistics should be considered in the context of its roles, goals, and objectives. Be creative in thinking about how the information contained in these numbers can help you improve library services. Use them to analyze your services and to work with your local government and your public.

I. FSCS Public Library Definition

A **public library** is an entity that is established under state enabling laws or regulations to serve a community, district, or region, and that provides at least the following:

- An organized collection of printed or other library materials, or a combination thereof;
- Paid staff;
- An established schedule in which services of the staff are available to the public;
- The facilities necessary to support such a collection, staff, and schedule; and
- Is supported in whole or in part with public funds.

II. Administrative Only and Contracting Library Districts

During the last few years, there have been only two library districts that contracted to have all services provided to their patrons by other libraries, namely Blackfoot Rural District and Bonneville County District. These “administrative only” districts are legally established boards and levy taxes, but have no facilities, collections, or other services; consequently, they do not meet the criteria of the FSCS Public Library Definition given above. Data for “administrative only” districts are always included with the data of the libraries that provided services to their patrons, Blackfoot Public and Idaho Falls Public, respectively. For FY022 Statistical Collection Bonneville County Library District will be its own entity.

Several other Idaho public libraries are party to some type of contract to provide or receive services from other libraries. Specific data for contracts are given, where applicable, in columns labeled Contract Population, Contract Income, and Contract Expenditures.

Explanations (cont.)

III. Accuracy and Completeness of the Statistics

The data in all tables are as the local libraries reported them to the Idaho Commission for Libraries except where obvious inconsistencies were spotted. In most cases, the local library provided revised figures

IV. Population Data

Population figures are calculated using data from the U.S. Census Bureau and reported by responding libraries. Partial county district populations have been adjusted in counties where it is possible to calculate the population by subtracting the populations of cities with tax supported libraries. There are, however, several districts where other methods for estimating population must still be used, since their boundaries do not match Census “block” units. However, the authoritative source for all population questions is always the U.S. Census Bureau via the State Data Centers Program. The URL is: <http://www.census.gov/sdc/>

V. Totals, Means, Medians, Percentages, and Per Capitas

Means for raw data elements such as “Annual Circulation” or “Central Libraries” are calculated by dividing the State Totals by the number of reporting libraries. This is the common Arithmetic Mean, which is commonly used to represent the typical library. A true Arithmetic Mean is also calculated for Per Capitas, such as Circulation per Capita or Operating Income per Capita.

As an “average,” the Median is much less sensitive to extreme differences than the Mean. The median is defined as the “exact middle” figure. To derive the median, each column of figures is arranged in descending order and then divided in half. For columns having an odd number of entries, the median is the middle reported figure. For columns having an even number of entries, the median is calculated by dividing the sum of the two middle figures by 2.

VI. Doubling Errors

An attempt has been made to correct a “doubling” error that occurs at the bottom line, especially in columns containing data on Population, Funding, and Expenditures. If not corrected, figures for a contracting library may be counted twice- once on its own line, and once again on the providing library’s line. In the population tables, the column for Contract Population will sometimes show both plus and minus figures. This allows the reporting of more accurate population data across the page and keeps the “doubling” effect from occurring when totals are added down the page. Figures which are subject to doubling effects are enclosed in boxes.

In the “Total Income” and “Total Operating Expenditures” columns, the doubling error has been corrected manually on county subtotal lines and again at the bottom line. Items that have been so corrected are again placed in boxes.

VII. Program Tracking Elements

In the Program Tracking Tables, under "Program Attendance", "Programs", and "Program Format". The Program Elements collection of the Report Form changed during this collection period. As a result the Program Elements were in certain situations combined into the Children's Program numbers. Any unspecified numbers were combined into the new datasets to give a more accurate picture of the numbers as a whole. Discrepancies are expected for this dataset, please consult with your local library for the most accurate collection data of the program numbers.. For FY2022 and forward the new elements will become standard and no combination of fields beyond reporting will be required.

Assistance in analyzing the statistics and performance measures is available from the Idaho Commission for Libraries.
