VI. GENERAL, MISCELLANEOUS REVENUE, AND LIBRARY SERVICES IMPROVEMENT FUNDS
C. Grants – Summer STEM and Make It Grants – Information Item

The Idaho STEM Action Center provided funds to the Idaho Commission for Libraries (ICfL) to award 66 public or school libraries $500 each to help pay for materials or presenters to support STEM outreach efforts during the summer. The ICfL provided a toolkit for learning activities, a branded yard sign, STEM books, and other resources. The Summer STEM program has three primary goals:

- Increase access to fun, engaging, hands-on STEM activities for underserved youth beyond the normal library programming efforts.
- Increase children's access to books during the summer months.
- Increase the number of children involved in STEM activities to minimize summer learning loss.

Continued support was provided for library staff taking programming precautions due to the pandemic. Some libraries are doing in-person programming in their buildings or at local parks. Some libraries are offering virtual and asynchronous STEM activities to support family learning. Libraries play a key role in out-of-school learning, especially during the summer months. This grant supports their efforts and continues to have a positive impact on our state. Last year, more than 50,000 people participated in a Summer STEM activity.

2021 Make It Program

The Make It program is designed to support the creation of Makerspaces in Idaho libraries and encourage the delivery of library services to digital users "where they live." The ICfL provides the necessary materials and trainings to implement creative, STEAM-based programming for all ages. The 2021 Make It program is being offered online. Funded by the Idaho STEM Action Center, there were enough funds to offer $1,000 and additional learning tools to the 46 libraries that applied and agreed to complete the following learning modules (approximately 16 hours of learning and activities):

- 360 camera
- AR/VR (Augmented and Virtual Reality)
- Cutting machines (Cricut and Silhouette)
- Zines!
- Diversity, equity, and inclusion

Participants are also required to create a program plan outlining how the library will use the $1,000 and participate in online chats related to the modules. End-of-program reports are due in August 2021.
