

Guiding Questions

As a part of the Advancing Creative Aging in the Western States Project, we're collecting feedback on these questions from workers at older-adult serving organizations and agencies across Idaho, Montana, Nevada, Utah, and Wyoming. Please reflect on these questions and hand this form back to someone from Lifetime Arts before the end of the day. Your feedback may be included anonymously in a report that will aim to raise further support for creative aging in your state.

What excites you about creative aging and its possibilities for helping you/your organization serve your constituents?

What support or resources would you need to collaborate on creative aging?

What next step might you take after today?

Who else might we want to engage that would be a ready partner for creative aging?

Your Sector/ Agency
