

**Bridging the Digital Divide and
Connecting Generations Through Technology**

Tech Training and Support For Older Adults

Decreasing social
isolation and increasing
self-
sufficiency

Youth Career Path Program

Developing work
skills and
enhancing
career
opportunities

Connecting Communities Through

Technology
and eliminating the
Digital Divide

Senior Tech Training and Support

- FREE access for all seniors
- Multi-lingual phone-in tech-help line
- One-on-one tech-support and training
- Group tech-training webinars and online social and health/wellness programs.
- Goal: To keep seniors socially connected and self-sufficient.

Partnership Opportunities

- Programs to meet the unique needs of each community.
- Training programs for first-time users.
- Training for Foster Grandparent/RSVP Programs.
- Custom webinars, 1-800 tech support line and virtual one-on-one tech support delivered through community organization websites.

Youth Career Pathway Program

- Training and learning activities that prepare high school, college and university students for volunteer opportunities and career development.
- Students can participate independently or as a group (afterschool program, course requirement)
- Develop workforce readiness skills.
- Logged hours, digital badges, certificates awarded.
