

## LIBRARIES ARE SAFE SPACES FOR EVERYONE.

It is up to all library staff to protect the privacy of all patrons regardless of their origin, age, background, religious preference, or views. A public library is a safe haven for all who visit. Nobody should ever be afraid to enter a public library. It should always be a place where privacy shall never be infringed upon. **Regardless of an individual's legal status**, libraries and librarians are concerned with assisting Hispanic patrons with all the resources their libraries provide and nothing else.

**NO LIBRARY  
CARD?**

**NO PROBLEM!**

**THERE ARE MANY THINGS YOU CAN DO AT THE LIBRARY, EVEN IF YOU DON'T HAVE A CARD.**

**USE THE LIBRARY'S WI-FI:** Most libraries offer free Wi-Fi access to the public. You can bring your own device and connect to the internet without needing a library card.

**READ BOOKS AND MAGAZINES:** You can read books and magazines inside the library without needing a library card. Some libraries may also allow you to check out books for use inside the library.

**ATTEND EVENTS AND PROGRAMS:** Libraries often host events and programs that are open to the public. These can include book clubs, author talks, and children's storytimes.

**USE LIBRARY COMPUTERS:** Many libraries offer computers that you can use to access the internet, type up documents, or print out materials. You may need to sign up for a computer time slot, but you don't need a library card to use them.
