FOCUS

Help reinforce essential kindergarten readiness skills while exploring the theme of foxes.

- Using stuffed animals and puppets to retell a story enforces reading comprehension for young children while also reinforcing skills like patterns and the sequence of a story.
- Fox in a Box is a game that teaches positional word vocabulary, rhyming, and how to follow multi-step directions.
- Puzzles help young children develop fine motor skills, hand eye coordination, cognitive and visual-spatial skills.

CHECK-OUT AND RETURN

The checkout period is 1 week with an additional 1 week renewal if possible. Kits must be checked out from and returned to the same Prairie River Library District branch. The kits will be rotated from branch to branch on a regular schedule.

We ask that all items within the kits be returned to the library complete and in working order. Library staff will inventory the contents of each kit upon its return and follow up on missing items.

Funding for this kit was provided by the Idaho Commission for Libraries
