

Let's Talk About It – Program Scholar

Tim Thornes

Boise State University

Mail Stop 1525

Boise, ID 83725

Dr. Tim Thornes is a professor of linguistics at Boise State University. His specialty includes the diverse indigenous languages of the region, but his main focus has been on Northern Paiute. He has written the only comprehensive grammar of the language and continues to document oral histories in the form of traditional stories, autobiographies, and other speech forms as part of a complete record of this endangered language. He consults with area tribes on language preservation efforts.
