Idaho Libraries in Every Region of the State Receive Federal Funding

COEUR d'ALENE, Idaho -- Idaho libraries in every region of the Gem State are receiving federal funding through the Coronavirus Aid, Relief, and Economic Security Act (CARES). In total, 91 libraries in Idaho applied for and received \$83,200 in CARES funding through a competitive grant process.

In northern Idaho, those libraries are: Benewah County District Tri-Community Library in Fernwood; Benewah County Free Library District in Tensed; Clarkia Free Library District; Clearwater County Library District in Weippe; Clearwater Memorial Public Library in Orofino; Coeur d'Alene Public Library; Community Library Network (bookmobiles, vehicles, and seven branches) in Athol, Hayden, Pinehurst, Post Falls, Rathdrum, and Spirit Lake; East Bonner County Library District in Sandpoint; Elk River Free Library District; Grangeville Centennial Library; Kellogg Public Library; Latah County Library District (seven branches) in Bovill, Deary, Genesee, Juliaetta, Moscow, Potlatch, and Troy; Pierce Free Public Library; Prairie River Library District (eight branches) in Craigmont, Culatesac, Kamiah, Kooskia, Lapwai, Nezperce, Peck, and Winchester; Priest Lake Public Library; St. Maries Public Library; West Bonner Library District (two branches) in Blanchard and Priest River. For the complete list of the Idaho libraries receiving CARES funding, visit <https://libraries.idaho.gov/wp-content/uploads/ICfL-CARESfunding-libraries20200617.pdf>.

The CARES funding is to be used to address digital inclusion and related technical support and/or for personal protective equipment (PPE) and cleaning supplies.

In many small and/or rural communities throughout Idaho, the library serves as the primary source of internet access for the area's residents. Idaho is one of the lowest ranking states for broadband availability, with 40 percent of the population lacking access and 20 percent reporting no home access.* This funding will enable libraries to purchase such things as devices and electronic content, Wi-Fi hot spots for their patrons to check out, and Wi-Fi boosters to extend the library's internet signal beyond the library building.

Idaho State Librarian Stephanie Bailey-White said, "This federal CARES funding will greatly help libraries boost their internet connectivity and provide more electronic resources for their patrons." Bailey-White added, "As illuminated by the COVID-19 pandemic, our libraries are a trusted source of online information, entertainment, and tools, but too many Idahoans are unable to access those resources from home. The CARES funding will help bridge that digital divide in Idaho."

Idaho Libraries in Every Region of the State Receive Federal Funding -- continued from page one

The CARES bill includes \$50 million for the Institute of Museum and Library Services (IMLS), which is the primary source of federal support for the nation's libraries and museums. The Idaho Commission for Libraries (ICfL) obtains its federal funding from the IMLS. In total, the ICfL received \$161,477 in CARES funding. The ICfL will continue to gather input from the Idaho library community before determining the best use of the remaining funds that were not directly requested by libraries through the grant process.
